No-Top Option:

Great Openings welcomes you to source your own work surfaces. We make this easy with our No-Top pricing option, which allows you to combine special curvilinear shapes or edge trims with our metal legs, modesty panels, and case goods to customize your desk.

Note: Great Openings' standard laminate work surfaces have been specifically designed and tested to meet or exceed ANSI-BIFMA standards for safety and stability. When installing a non-standard work surface (i.e., a Great Openings' "No-Top option"), it is the customer's responsibility to ensure the safety and stability of the freestanding desk.

Non-Standard Laminate / Edge Treatment (special order laminates):

Great Openings will supply your COM work surfaces. Please submit laminate and/or edge, manufacturer names, pattern names, and identification numbers on your purchase order. Non-standard laminate/edge orders cannot be changed or cancelled after the order has been confirmed by our Customer Service Department.

Please note that non-standard laminates or edges will require additional charges, lead-time, or minimum order quantities.
