

Custom Color Idea Starters

Painting a variety of colors – even the most outrageous – is absolutely one of Great Openings’ strengths. These Custom Designer Colors represent some of the more fun finishes we’ve painted recently. We post them here as an idea starter; if you see something you like, please call for a quote. An up-charge and longer lead time will almost certainly apply. As you can imagine, the colors viewed on your monitor may not be completely accurate. The hue, gloss, and texture of your final product may vary.
