

# Tackable Screens

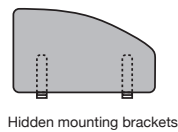

RECTANGULAR AND SCALLOPED

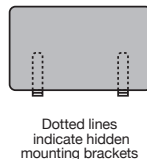

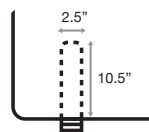

# Tackable Screens

Cannot be used with modesty panels.

Hidden mounting brackets

Dotted lines indicate hidden mounting brackets

## FEATURES

- Tackable board is covered on both sides with fabric of your choice. Brackets and fasteners are included, which allow the screen to be fastened to the underside of the work surface
- 12 gauge metal mounting brackets slide between these back-to-back tackable boards and are hidden from sight (See cut-away diagram to the left)
- Screens 35" and narrower include two mounting brackets
- Screens 41" and wider include three mounting brackets
- Screens measure one inch less than the work surface widths to allow for even spacing between screens, wire management, and cornering applications
- Please note that tackable privacy screens may not be added to a desk when modesty panels are in use because the screen mounting brackets interfere with the modesty panel location
